

# Trek 820 Light Mount Replacement

We will show you how to install your light mount on your handlebars.

Written By: Kaveh Karimiyanha

## PARTS:

- [light mount](#) (1)
-

## Step 1 — Light Mount

- ★ You will need to make sure to acquire a light mount such as the one in the picture.
- You will want to pick a spot - like the one illustrated with the red box - to place the mount.

## Step 2

- i Make sure the surface where the mount is being placed is clean.
- Next, you will wrap the light mount around the handlebars.

### Step 3

- Locate the slot for which the strap will be slid through.
- Slip the strap through the allotted hole.

### Step 4

- Pull the strap tight and put it through the clasps at the bottom of the mount.

## Step 5

- Take the screw and put it in the hole.
- Twist the screw until fully fastened.
- Your light mount is now ready for use.

To reassemble your device, follow these instructions in reverse order.
